Gentlemen:

Since production of the developmental lot of AB delay mechanisms under your Work Order QK-15-529 will soon be terminated, it is our desire to make arrangements for the inspection and temporary disposition of the client's tooling now in use at Thomaston Special Tool Company, Thomaston, Connecticut. Therefore, upon completion of the lot, you are hereby authorized to take custody of this tooling and ship it to the reservation for technical inspection purposes.

If there are any questions regarding this action, do not hesitate to contact this office immediately.

Sincerely yours,

25X1
